

ciao

ITALIA!

We've explored modern Mexico, the Cape of South Africa and the temples of India... Now we're off to the enchanting land of Italy!

.....

Italy is home to modern day pizza... the pies we know and love evolved from flatbread dishes that were popular in Naples hundreds of years ago.

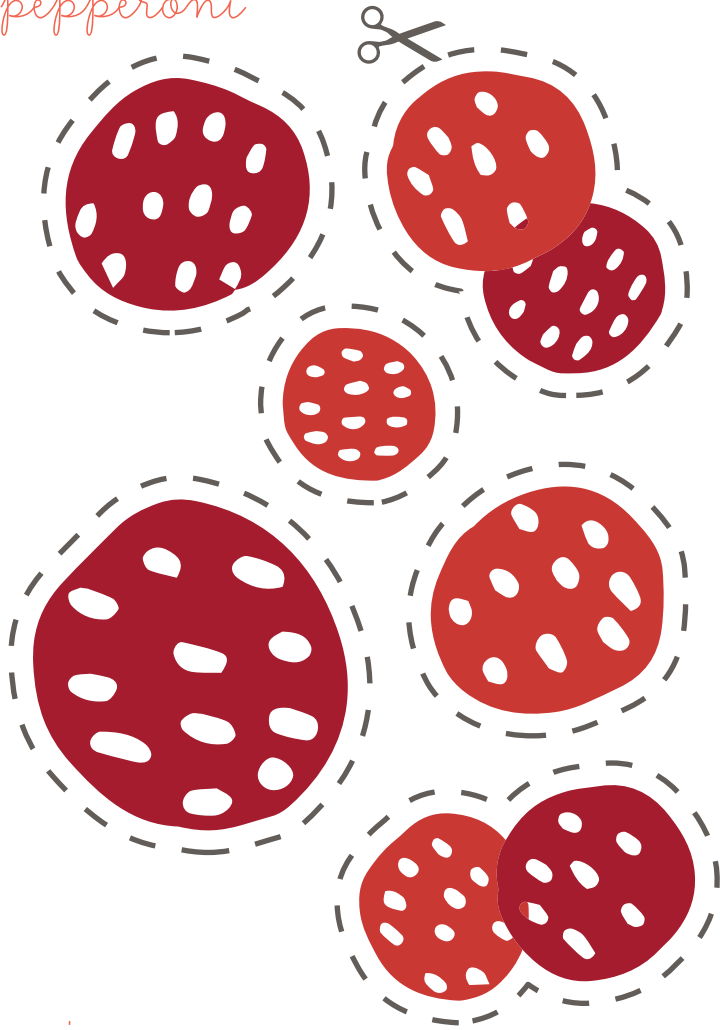

These early flatbread "pizzas" were topped with many of the same ingredients that are still popular today - garlic, cheese, basil and more.

In 1830, the Antica Pizzeria Port' Alba in Naples became the first true pizzeria, allowing you to order a custom pie with your choice of toppings.

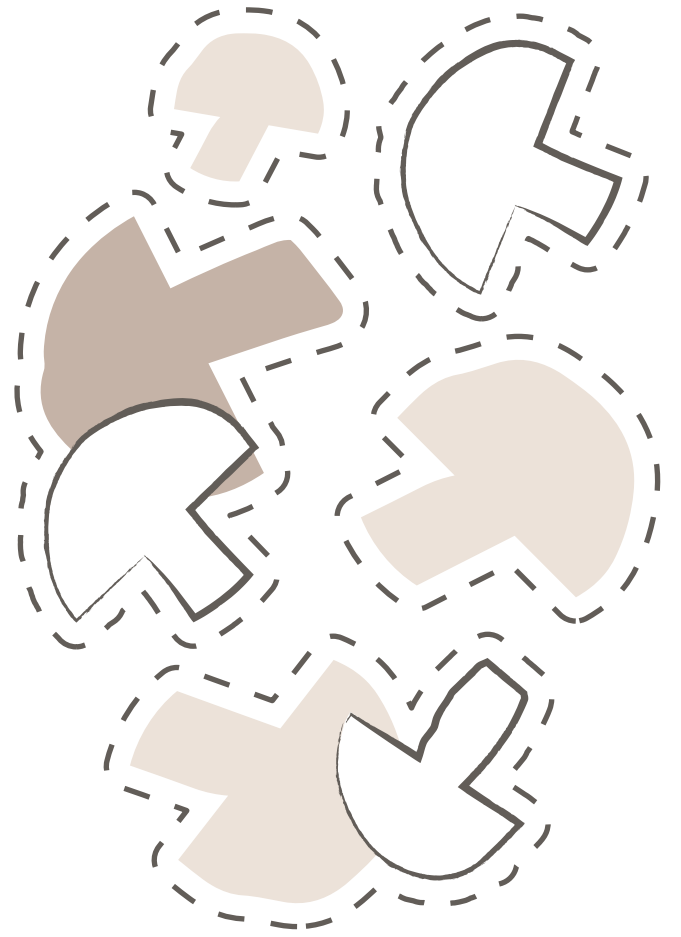

Let your little citizens
MAKE THEIR OWN PIZZA
and cut out their favorite toppings!

We picked out a few ingredients to help them get started.

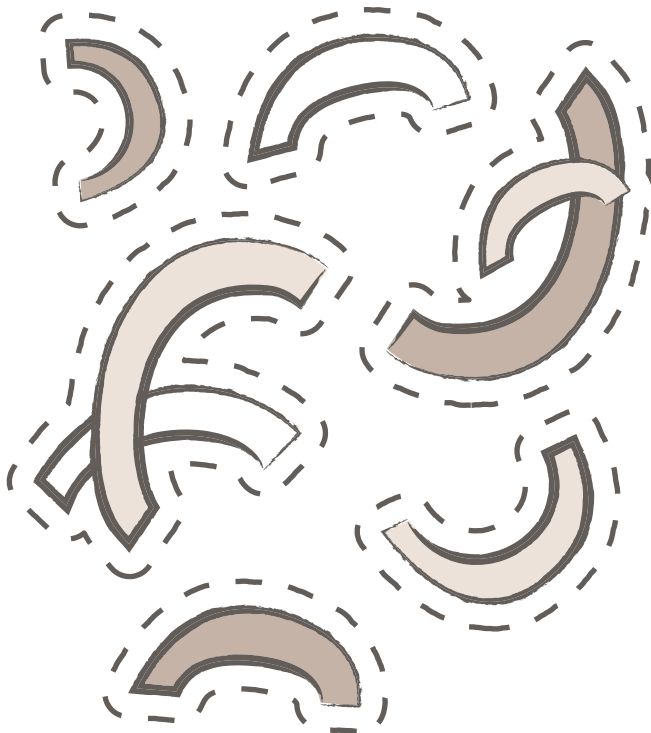

pepperoni

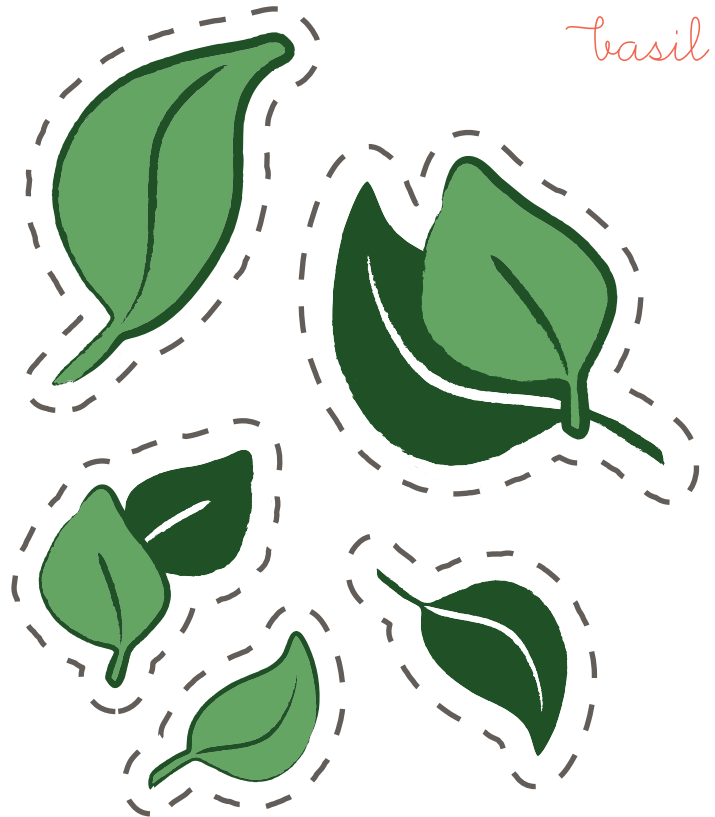

mushrooms

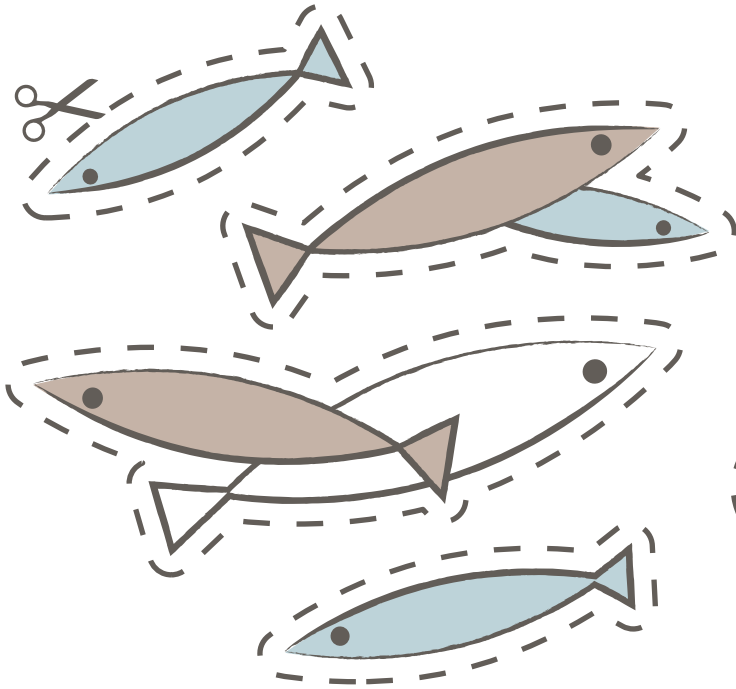

onion

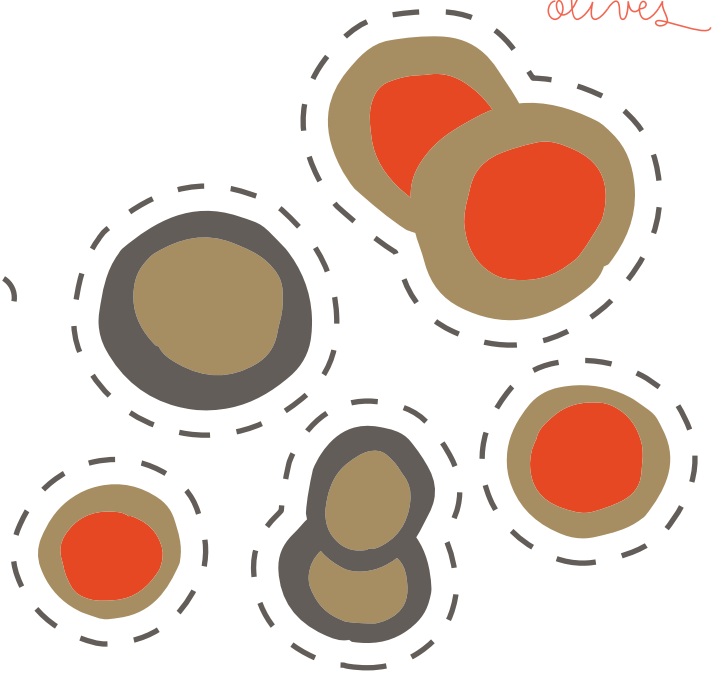

basil

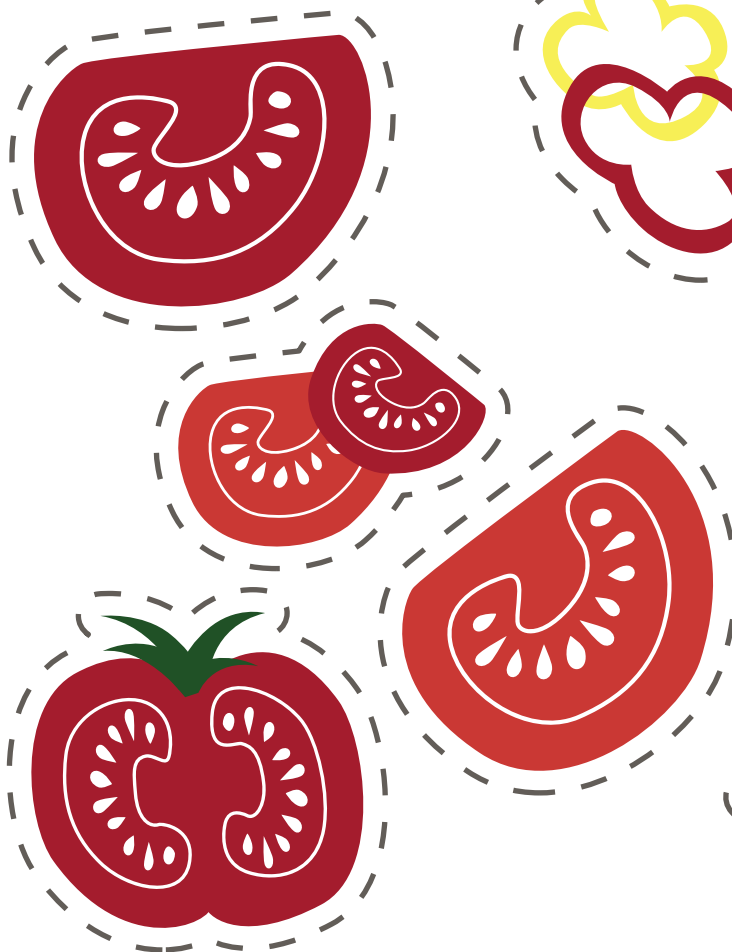

anchovies

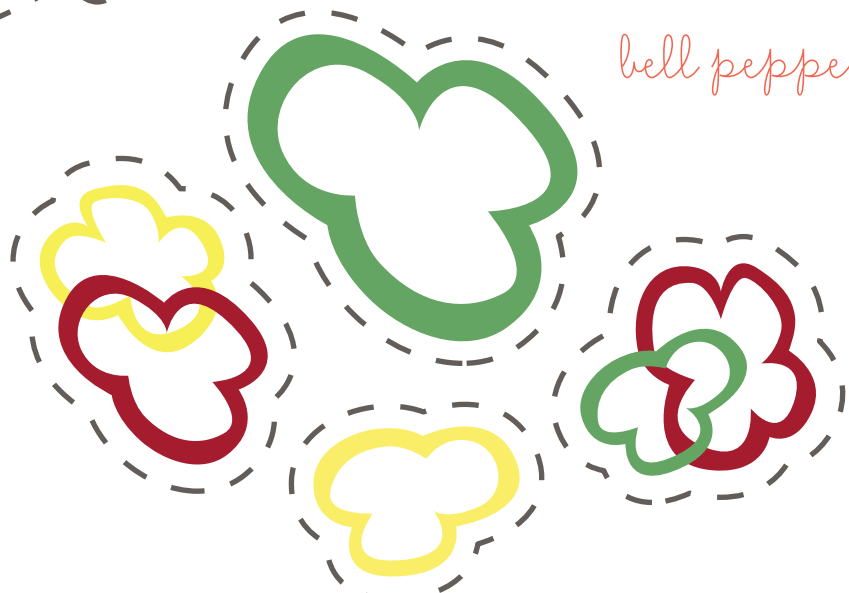

olives

tomatoes

bell peppers

garlic
